

Hibernian Global Education Initiative, Inc., a privately held vanguard USA Education Corporation, is one of the premier USA providers of leading edge Innovation & Technology and Entrepreneurship programs to international students

- \*ARTIFICIAL INTELLIGENCE \*ROBOTICS \*PUBLIC SPEAKING
- \* INTENSIVE IMMERSION ENGLISH CLASSES
- \* INNOVATION & ENTREPRENEURSHIP
- \* AUCITING COLLEGE COURSES

### **"LENGTH OF THE DRAGON"**

Hibernian looks to enroll quality students into optimum education programs at top performing private, Catholic, and Christian schools in the United States. High school students and parents receive "Length of the Dragon" services, whereby Hibernian will supervise the education process from their first high school application through college enrollment & acceptance. Students will receive a premium education at the high schools, along with additional enrichment educational opportunities while attending those schools.

### **"LENGTH OF THE DRAGON" SHORT-TERM INTERNSHIP**

Students who meet academic criteria will be eligible for "Short-term Internship" programs, with American corporations. Qualifying high school and university students will have the opportunities to experience the work cultures of USA Fortune 500 or start-up companies. Students who meet academic criteria may be selected as mentees of local area entrepreneurs/corporations.

### **"LENGTH OF THE DRAGON" EDUCATION/CAREER PARTNERSHIP**

High School graduates in the Hibernian program will continue with the Hibernian program as they move forward. Many of these students will be entering college, with their parents living thousands of miles away. Fortunately, Hibernian will provide them with all necessary college and career guidance/counseling, including but not limited to college enrollment, college acclimatization, occupational placement, and other issues. The Company will also be the parents' point of contact and information source in the United States.

### **ONE SEMESTER AUDITS OF MIDDLE & HIGH SCHOOLS**

Students from the 7th to 12th grade may enroll in an American middle, or high schools for one semester. They will audit American classes and interact with American students. They will participate in American English & general classes as part of their international experience. They may also decide to enroll into the American schools as part of the "Length of the Dragon" program after the one semester.

### **TEN-DAY SUMMER ACADEMY CERTIFICATE PROGRAMS**

Summer Academy Certificate Programs in the premium American academic and technology program at Rutgers University in New Jersey, located between New York City and Philadelphia. Students will attend certificate classes at that university. Students will receive certificates for attending programs taught by American scholars who will instruct them in Entrepreneurism, Innovation, Leadership, and Public Speaking. They will also explore Robotics, Engineering, and Artificial Intelligence, in special classes taught by university professors. Students will visit laboratories, major international corporations, and historical sites in the birthplace of the United States.

# HIBERNIAN GLOBAL EDUCATION INITIATIVE

*Presents*

## Youth Social Entrepreneurship Development

Hibernian Global Education Initiative seeks to empower youth in countries around the world by promoting their competence in social entrepreneurship. This effort will not only provide assistance for qualified individual youth entrepreneurs but develop a model for youth social entrepreneurship which can be applied in different regions of the world. "Youth social entrepreneurship" refers to a youth entrepreneurial venture, which has, as part of its mission, the purpose of contributing to the betterment of the society in which it operates. Successful youth social entrepreneurs will be invited to present proposals in a competitive platform, based on an American "shark-tank" model, or via international video conferencing, to potential investors who can help them improve and expand their enterprises. The project will allow successful youth entrepreneurs to scale-up their ventures, initially through possible investments from aforementioned investors.

### English Language Summer Camps

Students will stay with families in New Jersey or other portions of the Delaware Valley near Philadelphia. Each morning, students will receive instruction in the English language, focusing on conversational English and an introduction of America culture through language. Each, afternoon students will participate in various local activities, such as visiting the Philadelphia City Hall, Independence Hall, the Constitution Center, Valley Forge and other sites in Philadelphia, or Wall Street, Broadway, the United Nations among other sites in New York City. They will participate in American baseball or soccer games and attend professional sporting events. Students will spend evenings with American host families. Many of the host families will have with their own children to interact with the Camp's children. Each host family will never have more than two international students per home.
